THE SYMBOL

IVS is an institute of scholarship in the field of visual arts. The history of visual language within our heritage reflects dynamic continuity and a rich diversity of idiom.

The elements drawn upon to symbolize the identity of the Indus Valley School of Art and Architecture are based on the primary sources of life.

Water: a symbol of knowledge, its acquisition and dissemination.

Waves: the symbol of the cyclical motion of life.

Tree: a symbol of the evolution and growth of thought and vision.

The geometric patterns of the symbol unify space in a rhythmic order; while the sculpted spaces symbolize the sky, the environment, and the limitlessness of human possibilities.

The Indus Valley School of Art and Architecture was founded in 1990 by a group of prominent architects, designers and artists who believed that Karachi was in critical need of a school of excellence, encompassing the disciplines of Fine Art, Design and Architecture.

The School is registered as a not-for-profit, non commercial institution and is managed by an Executive Committee through the Executive Director under the overall control of an independent Board of Governors. The Governor of Sindh is the patron of the School.

Indus Valley School was granted an independent charter by the Government of Sindh in June 1994, thereby empowering it to award its own degree. It was the fourth institution of higher learning in the private sector in Pakistan to be given a university status.

Admission to the School is strictly on the basis of merit as determined through an aptitude test and interview.

The scholastic requirement for eligibility is an intermediate pass with a minimum of 'C' or an A-Level pass in two subjects (other than English) or an International Baccalaureate.

The Indus Valley School of Art and Architecture is dedicated to much more than producing technically competent artists, designers and architects. It strives to motivate and guide students to cultivate their minds, to be curious, to think for themselves and take independent positions; to respect knowledge, with humility; to keep themselves open to sources of experience and learning; and to be politically aware and socially responsive. The School attempts to integrate students from diverse cultural, ethnic and socio-economic backgrounds.

It's bad enough that we have to run these stupid errands. Listening to this horrible trance music definitely ain't helping!

It's classic rock time!

Turn that rubbish off. Trance is the best form of music.

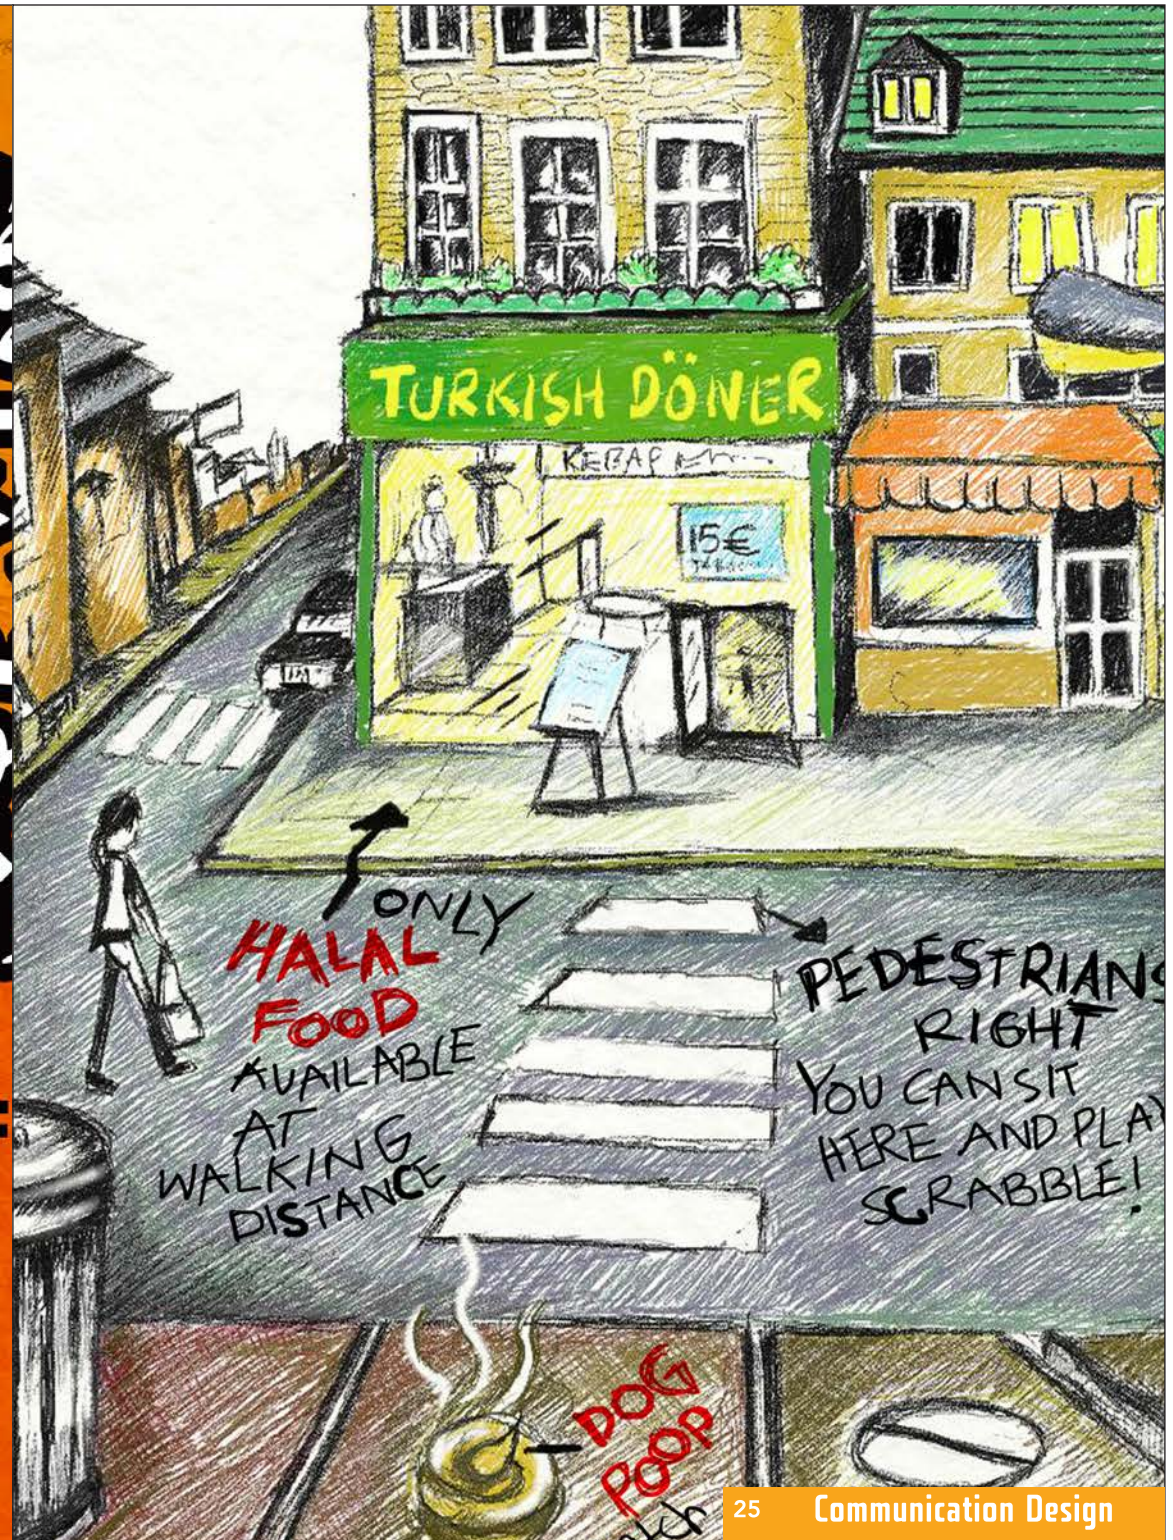

With me having to wash all the dirty dishes.
