ST-33, Block-2, Scheme-5, Clifton, Karachi, Pakistan UAN: 111-111-487 www.indusvalley.edu.pk info@indusvalley.edu.pk

IVS is an institute of scholarship in the field of visual arts. The history of visual language within our heritage reflects dynamic continuity and a rich diversity of idiom.

The elements drawn upon to symbolize the identity of the Indus Valley School of Art and Architecture are based on the primary sources of life.

Water: a symbol of knowledge, its acquisition and dissemination.

Waves: the symbol of the cyclical motion of life.

Tree: a symbol of the evolution and growth of thought and vision.

The geometric patterns of the symbol unify space in a rhythmic order; while the sculpted spaces symbolize the sky, the environment, and the limitlessness of human possibilities.

Zahoor-ul-Akhlaq 1941 - 1999 The Indus Valley School of Art and Architecture was founded in 1990 by a group of prominent architects, designers and artists who believed that Karachi was in critical need of a school of excellence, encompassing the disciplines of Fine Art, Design and Architecture.

The School is registered as a not-for-profit, non commercial institution and is managed by an Executive Committee through the Executive Director under the overall control of an independent Board of Governors. The Governor of Sindh is the patron of the School.

Indus Valley School was granted an independent charter by the Government of Sindh in June 1994, thereby empowering it to award its own degree. It was the fourth institution of higher learning in the private sector in Pakistan to be given a university status.

The Indus Valley School of Art and Architecture is dedicated to much more than producing technically competent artists, designers and architects. It strives to motivate and guide students to cultivate their minds, to be curious, to think for themselves and take independent positions; to respect knowledge, with humility; to keep themselves open to sources of experience and learning; and to be politically aware and socially responsive. The School attempts to integrate students from diverse cultural, ethnic and socio-economic backgrounds.

#### Home for Orphans and the Elderly

This project aims to bring the socially disconnected first generation elderly and the third generation orphans together to form a community of their own, in one institution customised to provide for both age groups. The home becomes an architectural solution for bringing the two users on to one platform via an exploration of connecting mediums, thereby reducing the isolation they usually face and linking them with the existing community.

#### Abdullah Mansoor

mansur.abdullah@gmail.com 0333-5344555

#### School Of Islamic Theology

The project explores a contemporary take on the School of Theology. From an introverted building typology to more extroverted and transparent building, it breaks away from the norm. The design provides an opportunity to have an intimate dialogue both with the context and city on an urban scale as well as on individual scale.

#### Aankhein - School for Blind and Visually Impaired

Description: The thesis aims to explore architecture without the sense of sight, stimulating the other senses to guide and enrich the experience of the user. The organizing principles of architecture namely, axis, hierarchy, datum, rhythm, repetition and transformation are incorporated in the design such that they cater to the blind/visually impaired. The series of events carefully designed using the sense of smell, touch and soundscapes around the entire building creates an interesting mind map for the blind/visually impaired students.

affan.adil@gmail.com 0334-3884879

#### Cancer Hospice and clinic

It has been identified that healing environments can improve and ease the pain of a terminally ill patient and reduce stress and depression levels. The proposal for a cancer hospice acts as a spiritual and meditative place; where the central feature are its outdoor spaces which provide for different mood settings and cater to a variety of functions. There are spaces both of contemplation and gathering - spaces that become a vehicle for spiritual upliftment and inner healing.

#### Transformation in Architecture.

The function of the library has transformed from a quiet, introspective space into an information provider for the promotion of communication. It has become an important social interface where users contact each other, exchange information and work together. This thesis explores how the library needs to transform spatially as well so that it can fulfill its role as a forum for learning and as a place for the community to come together to mix and mingle.

#### Amun Junejo

a.junejo@hotmail.com 03323675978

#### Regionalism in Architecture

Regionalism in Architecture, a concept of architectural design based on determinants ,as culture, climate and resources. Community hub, where the village could unite and participate in recreational and religious activities. A secular space consisting of a bazaar around a masjid, movement arteries like lanes, streets, thoroughfares reveal patterns determined by the public functions. Streets as community living rooms hum with activities of commerce, trade and public entertainment.

#### Anamta Akber

anumtaa@yahoo.com 0322-2716762

#### Urban In-Fill

This Architectural thesis explores the potential for active and creative use of leftover spaces in Karachi. A design project is instituted in the leftover space under the Gizri flyover by a design concept that goes beyond traditional bounded perspectives. Through the project, the thesis identifies an unconventional reality that can help preserve the urban fabric and urban life of Karachi.

#### Armughan Ahmed Faruqi

armughan @hotmail.com +92300-2650389

# Exploring the transition from land to the sea- Waterfront project My project is an exploration of a transitional journey from the orthogonal fabric of the city to the organic nature of the sea. The experience becomes a series of events where the character of spaces changes constantly. A space where one forgets all his worries by providing you different colors, music, water activities, eateries, dancing water show and an endless view of the horizon. which portray an image of a coastal city.

#### Dabeer Hemani

dabeer.hemani@gmail.com 92-333-397-26-72

#### Neighborhood Children's Centre

In absence of any dedicated and designed children's facility, the thesis aims to explore architecture responsive to the physical, cognitive and social attributes of a child. The program is developed by an analysis on the children activities present in the neighborhood. An architectural approach is aimed, where the building responds to the opposite park bringing it within the site itself giving children different intuitive activity generating opportunities.

#### Joveria Rahim

joveriarahim@gmail.com 0342-2614237

#### School of Fashion Design (AIFD)

"Fashion is not something that exists in dresses only. Fashion is in the sky, in the street, fashion has to do with ideas, the way we live, what is happening."
-Coco Chanel

The basic principle of a fashion school revolves around effortless interaction that includes observing, communicating and learning. Hence this thesis focuses on the integration of social and learning spaces giving the students an opportunity to learn from their surroundings which is the key for fashion.

#### Kiran Fatima Jaitapkar

kiran.88@gmail.com 03323699636

#### School for Music

"Architecture is music in space, as it were a frozen music" - Friedrich Wilhelm Joseph von Schelling

I am exploring the relationship between architectural spaces and creative art in the form of music and performance, through making connections that create a flow of circulation, which gives a user the same feeling of listening to serene music.

#### Maliha Bashir

malihaabbasi@hotmail.com 0333-7551804

#### Expansion Of The Ivsaa

Developing a sensitive dialogue amongst the contrasting architecture of different eras - Through the exploration of formal, functional and spatial potentials in architecture. The objective for this thesis was to explore that how the different architectural languages, designed in different centuries and eras could be formally, functionally and spatially be tied together to form a cohesive whole and how can they setup a sensitively responding (architectural dialogue) amongst themselves.

#### Maria Khan

0333-2142626

#### Destination retreat for the tourists in Mubarak village

The resort is designed as a series of scenographically conceived spaces separated by various activities and rock gardens forming nodes on the winding pathway. Also breaking down the barriers between inside and outside, interior design and landscape architecture, keeping sensitivity to site and context in mind. And the experience from the approach evokes the pleasures of the senses that go hand in hand with the climate, landscape, and culture of the area.

#### Mariam Hyder

mariam.hdr@gmail.com 0092-333-2384171

#### Housing Facility For Boys

Architecture nurturing through spatial fluidity and confinement.

The housing facility for boys is catering to orphans between the age groups of 5-15. The design strategy is looking a number of dwelling units which are fragmented. All strung together with pedestrian pathways that form the spaces of interaction. The idea of the gulee and chowk, How the street provides a different sense of feeling and creates a different level of interaction. Whereas the chowk becomes the culmination of the street.

mehreenkm@gmail.com 03332495131 / 02134535172

#### Nautanki Theatre

"All the world's a stage And all men and women merely players." -William Shakespeare Assuming a role; attaining a character; transforming a space into a place are the few similarities shared by an actor and architecture. Architecture acts as the formal entity of the in-between. The possibilities of dialogue between the spectator and spectacle depend on the flexibility of the architecture. The Nautanki Theatre explores the possibilities of the spectator becoming a part of the spectacle in the setting of a theatre which is cannibalised by the street and park.

#### Muniza Hashmi

#### **Urban Rooms**

The project is an exploration of the possibility of urban public space within the realm of a mixed use development that can be owned by the people of karachi. The nature of the site is opportune as it is in the city center and a ground zero site from which all distances have been measured since 1947. The vision is to give karachi an open urban space- karachi/ kolachi plaza that celebrates the city and its history and diversity .

#### Murtaza Q. Nooruddin

### National Archives "as a place of overlap" between the "state and the public"

Through an exploration of the phenomenon of transparency in architecture, this thesis aims to assess and re-interpret the relationship between the state and the public, within which the National Archive building acts as a forum where research, debates and discussions are welcomed. It serves as a public place for gathering and sharing information through the electronic, digital, visual, and printed materials.

#### Naeem Abrar

# Seraye: Catering To The Transient Community At Cantt Station Karachi A place where cultures meet, a roadside inn built to shelter men, goods, and animals along the ancient trade routes. In Islamic cities, the seraye becomes integrated with the bazaar and an adjoining mosque; together forming the principal urban space. Employing the gist of this concept, this project is a modern reinterpretation of a caravan seraye aimed at understanding the workings of transport hub, with the seraye and their relation to the bazaar

#### Saad Pervez Wahid

saadpervezwahid@gmail.com +92-333-238-1171

#### **Shopping and Entertainment Center**

My thesis explores the fusion of traditional marketplaces such as street bazaars and enclosed shopping malls. A strong contrast exists between the two typologies, where street bazaars are open bazaars with temporary canopies and the modern shopping centers are enclosed where all the activity happens under one roof. The idea of this thesis is to create these two types of shopping cultures at one place, where both can survive at the same time without any conflict. To unite these contradicting environments, the creation of streets within the space connects the two extremes of urban reality.

#### Sharmeen Sheikh

sharmeenzak@yahoo.com 03002432514

sofiakamran125@gmail.com 0333-3329411

#### Primary School for Deaf

"Exploring architectural elements to develop a sense of play in the learning environment- de-institutionalising the typical school."

Architecture for deaf plays a vital role as the underlying theme behind deaf spaces is to create "visual centric "spaces where the building communicates with the child through the sense of touch and sight. Architectural "play" or playscapes creates spaces for children that are based on their imagination as well as create visually dynamic spaces that assist the deaf.

#### Syed Nabeel Akbar

syednabeel88@gmail.com 0313-2434622

#### **Juvenile Correction Center**

A secure facility that houses children (up to the age of 18) who have committed minor offences. Its purpose is not necessarily punitive, it rather focuses on rehabilitation. Architecture plays an important role in creating an overall positive environment and with the concept of 'Architecture Beyond Bars', the design focuses on spaces that go beyond containment and bring positivity to the inmates who then re-enter the society.

#### Syeda Fatima Hasan

03343646184

#### A Culinary Promenade

Education outside the formal kitchen and enclosed rooms is given importance and circulation is seen as a catalyst for modifying the preparation of food in this culinary school. Activities to pause and engage with the surroundings have been created by constantly changing the sensual and physical appearance of the space.

#### Ali Tahir Kidwai

#### Boy Scouts Activity Center at Abul-Hassan Isphahni Road

To explore movement in architecture, both in physical terms of an active program as well as psychological aspects of growing up. Architecture controls space. It defines not only where one can tread, but also where one cannot. Sequences of space are generated that are to be experienced in specific orders. But to experience these sequences, one must exercise movement. So it can be inferred that architecture not only defines spaces, but also regulates movement needed to experience them. The goal of this exercise is to reverse this equation and exploit movement to generate a sequence of spaces.

#### Sub Ka Karachi

Sub Ka Karachi aims to encourage Karachites to inculcate and realize the fact that Karachi is the city which symbolizes diversity of languages, cultures, believes, behaviours and so on. The concept of this project is to bring awareness among the people of Karachi to understand and acknowledge the existence of diversity in the city; instead of having disputes on pity issues over the Languages we can celebrate this diversity present amongst us.

#### Muhammad Saad Saif

sadus.saad@gmail.com 0306 – 2632031,

## Primordial - metal music adaptation

Metal music is more than just an unexplored art, it is a universal language which binds masses together. It promotes not just anarchy but the resurrection of the past which leads to a tainted future, the circle of life is only complete by death, from which emerges life senseless of its past. I believe that if this method which is inspired by this genre, is applied to our existing lives where history determines the future, it can also adultrate the process of the birth of a new understanding of the preconcieved ideas we live with.

# Anam Yaqoob Paracha

anamperacha@gmail.com 0333-3154308

The bond of relationships is strong enough to keep one tied for centuries with people and places. Re- creating memories, the objects covered in my work reflect the nostalgic recollections that are meant to be preserved unconsciously. The cluster of memories and relationship linked together started with a particular displacement. Therefore, by covering objects and space, isolating them from traces of time I have deliberately tried to preserve both entities.

# Aniqa Imran

aniqaimran@hotmail.com 0345-3069427

I am re-appropriating existing books and magazines using them as tools of expressions. The idea to visually express my growing frustration led to making the books inaccessible through various methods. By intervening into magazine covers I am creating a more intimate relationship with printed text. My work indicates a realization and acceptance of my own shortcomings.

#### Anum Ather Jamal

janumather@gmail.com 0333-3112411

The deconstruction of architectural structures in this body of work is part invented, part documented and part memory, and executed in large scale three dimensional drawings. It is an amalgamation of the concrete forms of buildings as fragments of balconies, doors and drainage pipes which resulted due to constant travelling and absorbing these visual forms persistently.

### Eema Alvi

eemaalvi@gmail.comkes 0343 2896668

Every day we hear of death and destruction that constantly takes place in our country. Our generation has become accustomed to these atrocities. In order for our generation to begin to feel remorse or loss, such unfortunate events need to be placed and preserved so that they become like a reminder of the level of ignorance we show.

#### Fatima Haroon

Phegencycasting@gmail.com 0306-275-6420

Scratching away the layers of that which is a familiar ground to our knowledge depicts the conditioning of our society and similarities within the perceptions we all share due to human co-existence. What may appear as pain may be pleasurable to another. One mans meat may be another mans poison. With the same thread of thought, it can be said that what we see is rather contrary to the understanding we gauge from it.

### 73

# Fatima Munir

It is a common practice to harness children's energy by giving them creative tasks like needle work. In Pakistan it is specially practiced because it brings calm as well as trains little girls patience, focus and eventually beautifies their home.

34 years of being trained to accept situations led me back to this technique to sing the songs of my mind; about the compromise of living and raising a family in one of the most dangerous cities of the world; about the frustration of the state of my country; about the despair that stares my face everywhere I look and about the grief that we must overlook to survive

# Hamida Khatri

hamida\_khatri@yahoo.com +92-333-3291743

A female body is believed to be an emotional baggage lurking, moulding, and adapting to situations verbally undefined. Such physical transformation is an internal yet external struggle, circumstantiating itself to be heard and seen by the naked eye. This work is a self-inflicted journey, a therapeutic battle leading towards the amalgamation of human (sophisticated) and animal (non-sophisticated); thus, formulizing independent species.

# Umme Laila Rizvi

laila\_rizvi8@hotmail.com 03343382527

The nostalgic beauty of the ruins of an old building or an object is an upsetting parallel with my mother's rapidly approaching old age. My work seeks to form a relation with these two parallels. I've used fabric and other personal belongings of my mother in an attempt to fill the cracks in walls and in different objects.

### A tribute to those we abhor

The pig, is one of the most controversial animals in Islam as it is prohibited from being consumed or even spoken of which is stated in Islamic laws. Using the religious and cultural significance of the pig, which is considered haram, is a method through which the imagery equates to the habit of sweeping, what we regard as a religious taboo, under the rug. To emphasise that some of the people we coexist with are almost as repulsive as our perception of the pig.

# Nilofer Kamruddin Kotadia

niloferkotadia@gmail.com 03313593515

My work represents the confusing state I have experienced due to my immigration from india to Pakistan. This transition affected both physically and mentally. The confusion created by the amalgamation of two languages effect my speaking and writing skill. Thus, it gives me the feeling of being an odd one out. I ended up producing art works which are specifically talking about words I pronounce wrong or in my own gujraty accent.

# Nimra Khan

nimo.k513@gmail.com 03453068996

The tiny flaws that occur in patterns hold interest for me, they are bothersome to the eye as the human brain is programmed to detect patterns and so even a small shift stands out. My work deals with systems that exist in the mundane, as well as order that we establish ourselves. I am interested in purposefully disrupting that order and for me these subtle disturbances are a point of excitement in an otherwise monotonous life.

nisa.karamat@gmail.com 0322-2280024

### Her Obvious Presence

"Life unfolds from the centre, New beginnings emerge from the breakup of the past forms, "Linda Joy

My work is about documenting an important relationship in my life, which I negated earlier. After a life threatening experience this relationship grew stronger through every day conversations. It is an emotional and personal relationship diary of human intimacy.

# Qurratulain Mahar

Equality is about fairness it underpins and is at the heart of all that we are and all that we do. Equality goes well beyond just equal opportunities and equal rights, equality is simply about making sure that people are treated fairly and given equal access to opportunities. From my personal experiences I have my own creed, I don't see any differences amongst us I see everyone on the same level. People have created their own notions, they have differences amongst themselves although they all are equal, Jamaat means praying in congregation, I compare equality with a group of people standing together and offering namaz without any boundaries or fear.

# Me Againt's My self

The walls, floors and ceilings of my house have always had a variety of mirror work. This developed in me a subconscious fascination with reflection and became prominent when I realized the meaning of Narcissism. I was fascinated with my own reflection. I saw myself in everything, the sea, my friend's eyes and their sunglasses. I explored the mirrors as a medium in different shapes and sizes; convex, concave, flat, pixilated and via geometric patterns.

# Tehmina Shamsuddin Maknojia

tehminamaknojia@gmail.com 03343722328

My work is interactive, like the act of playing with toys. Formations that follow function have always intrigued me. The process of creating these pieces was reminiscent of my memories of creating my own toys. It involves movement and kinetic energy, inclining one to engage with it irrespective of the barriers of age, background or class.

# Fruit burst for window coverings

I have designed a collection of hand woven fabrics taking inspiration from exotic fruits like kiwi, papaya, watermelon, orange, pineapple and pomegranate. Inspired from the colours of fruit and their textures samples of fabrics have been created on the loom with a variety of threads and other materials. Multiple weaving techniques which are dove tailing and supplementary weft have also been explored to create fabric that can be used for window coverings.

### Truck on the loom

Truck art is a form of art practiced commonly on buses and trucks in Pakistan. These vehicles are painted in bright, lively colours and striking imagery. Being a weaving major, the objective was to translate this conversational and colorful form of art on the loom, keeping the restrictions in mind. Various weaving methods have been explored, from simple stripes and checks to motifs and different compositions of imagery seen in truck art on the jacquard. The product range designed for this is yardages for multiple products which include upholstery and home accessories.

## Hand Embroidered Bags for Young Girls

My story revolves around a character named Chulbuli, who loves dressing up and has curious nature. My composition depicts her interests and her character well. These designs are translated onto fabric using a variety of stitches with the help of dexterous artisans based in Shireen-Jinnah colony. Various types of fabric are explored such as calico, canvas, cotton, denim and twill. These hand-embroidered fabrics are used to create a collection of bags for young girls.

111

#### Aneeta

### Durga Maata

The theme of my garment collection is "Durga Mata". Women of today have raised the standards of their living by equally participating in the race of competitive world with men. However for me the strongest woman and the source of inspiration for this theme is "Durga Mata". Durga Mata is considered to be the symbol of "power", "strength" and "love". Hindus all around the world believe "Durga Mata" as "Shakti", She protects them from evils, loves them like mother and makes them confident enough so that they may fight with all challenges courageously. "Durga Mata" is a perfect role model for every kind of women.

## Dancing with Death

My collection is entitled "DANCING WITH DEATH" and has been designed to capture both creativity and wear-ability for Pakistani women, taking inspiration from Spanish Matador's looks to represent both softness and edginess. I have used fabrics such as variety of silk, suede and also machine and hand embroidery.

### Habiba Nehal

## Moulin Rouge

My theme is Moulin rouge, a cabaret built in 1889 in France, which describes the night club life in Paris. And my inspiration is Moulin Rouge, the 2001 romantic jukebox musical film, which shows an intoxicating and vivid world inhabited by artists and performers dressed in the most elegant and extravagant costumes. I've tried to create a luxury prêt collection which has the same feel of richness and elegance in terms of color and cuts.

# Mast Malang

My Theme Is "Mast Malang" Malangs Are Unique Characters.Dramatic Personalities, Seemingly Under Some Deep Spritual Trace.They Move Away From Everyday Existence Of Desire & Greed. I Got Inspired By This Theme Because Liberty Of Choosing Things From Here And There. Malangs Used To Put On All Types Of Colour Style. I Have Used Traditional Techniques Such As Cutwork, Layering, Tie N Dye And Chunari.

# Misbah Jamil

### Thrill of the Hunt

Keeping in mind a fusion of east and west. Concept of separates yet to be worn in combination as well which means any trouser can be matched with any shirt in the wardrobe. I kept into consideration the incorporation of pockets, collars and top stitching when making the dresses.

## Muhammad Ali Khan

malikhan2006@yahoo.com

The extravagant wasteful-ness in pattern making is prevalent in todays apparel industry. In my final project, I have en-devoured to revive the tradition of pattern making based on zero waste. My designs have echo's of our classic and ancestral traditions, of using fabric with respect, with no waste.

This documentary is about Mr. Muhammad Raza Minhas who took the initiative of gathering students and youngsters enriched with the spirit of patriotism on a facebook page. This happened to grow huge, for it was meant to be. On 6th September 2010, a time when Floods had hit Sindh, he realized it was time to stand up and step out to physically cater people in need and despair. He along with a few friends and students conducted a charity walk at Teen Talwar, Clifton — Karachi for the flood victims of interior Sindh.

### Shahzaib Ali

shahzaii.ali@gmail.com 0332-8200039

This story is about a writer, who writes about his dreams, but to the twist he forgets what he dreamed. The story goes on in chronological order to respect the character(s) time within the dream and their reality. Until the end where he saw himself in a maze and due to his paradox thinking, he finds himself again to wake up from the start and write it all back again.
